

## AV 121 Cancelled

We cancelled Variance 121, as of Monday April 25, 2011. Now, any show that has aerial performers must notify the DOL local office of the performance by letter at least 10 days before the event. We will review the plans for each show.

Where aerial performers fly over an audience, we will consider a site-specific variance, based on the information you provide. You should send us that information **as soon as you have it** to speed the review process.
