Dear Sirs,

My name is John Scherrer and I am the Business Manager of IBEW Local 237 in Niagara Falls, NY. I wish to comment on New Source Electric's application to sponsor an apprentice program. New Source has no Journeymen electricians working for him. New Source also has a terrible record for safety with multiple OSHA violations and has been not allowed to perform work at business center in western NY of. I urge you to not allow [REDACTED] register this company for an electrical apprenticeship because of these reasons. Contact me if you need more detail.

Thanks,

John Scherrer
IBEW Local 237 Business Manager

NYSDOL

My name is Nicolaus J Coyle and I am the Organizer (recruiter) and Assistant Business Agent for International Brotherhood of Electrical Workers Local Union 237. I am writing this email to express my detest at the notion that Newsourc Electric may receive an apprenticeship program. Aside from having no Journeyman credentials [REDACTED] zero journeyman electricians at [REDACTED] company. No one could possibly train or supervise [REDACTED] apprentices on the jobsite. There is not one area electrical inspector who will attest that there is one qualified person employed [REDACTED] shop [REDACTED]

[REDACTED] Feel free to fact check that statement with the area inspectors and other non union shops. [REDACTED] well known for being kicked off projects and other companies having to come in and clean up the mess. [REDACTED] poor workmanship has led [REDACTED] to be removed from bidding with several area General Contractors. The solar field in Sanborn [REDACTED] is on now is an absolute disaster. I can give you contacts to the General Contractor over there [REDACTED]

[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED] has OSHA violations against him as well.

Giving Newsourc Electric an apprenticeship will no doubt just be an all-around awful idea

Sincerely

Nicolaus J Coyle
IBEW 237
