About the Census Bureau

- The U.S. Census Bureau is the federal government's largest statistical agency.
- We conduct more than 130 censuses and surveys each year, including
 - The Decennial Census the once-a-decade population and housing count of the United States
 - **The American Community Survey** the ongoing survey that provides annual data on the nation's population
 - **The Economic Census** the official five-year measure of American business
 - The Census of Governments identifies the scope and nature of the nation's state and local government sector
- Our mission is to serve as the leading source of quality data about America's people, places, and economy.

Monthly and Quarterly Surveys **Annual Surveys Economic Census – Every 5 years**

Census Bureau Economic Surveys are a key source for official statistics companies can use:

- Monthly and Quarterly are small sample surveys that provide the most **TIMELY** data available
- Annual surveys have larger samples and provide the most up-to-date TREND data available
- Every 5 years, the Economic Census measures all businesses and provides the most **COMPREHENSIVE** data available

These surveys set the standard for U.S. economic statistics, and are fueled by the data provided by individual businesses

The 2012 Economic Census (EC)

- NAICS: Nearly every 2- thru 6-digit code covered by the Census Bureau
 - Excludes Agriculture (NAICS 11) and other selected types of business (see https://www.census.gov/programs-surveys/economic-census/guidance/understandingnaics.html#par textimage for full list of exclusions)
- Geography: National, state, metro, county, place, and ZIP Code levels (areas shown vary by sector)
- Other Dimensions: Data by business size (establishment and firm; employment and revenue), Legal Form of Organization, Franchise status, etc.
- Over 200 data variables shown, including number of establishments, employment, payroll and "sales" plus sector-specific variables (inventories, assets, expenses, etc.)
- Product Lines data (revenue by products sold or manufactured or services provided)

(Note: Also have programs related to the 2012 EC, including the 2012 Economic Census of Island Areas, the 2012 Survey of Business Owners and the 2012 Commodity Flow Survey)
