PURPOSE

The One-Stop Operating System (OSOS) is the primary case management system used for
tracking all services provided to customers throughout the Workforce Development System.
OSOS collects substantial information from customers, businesses, and training providers. This
information is also used to prepare required State and Federal reports.

This guide provides instructions on how to conduct the OSOS data entry for the Opportunity
Youth Career Exploration and Access (OYCEA) Program.

Please see the OYCEA City of Syracuse RFP for additional information on the OYCEA Program:
OYCEA RFP
SEARCHING FOR THE CUSTOMER

The first time staff enter customer data into OSOS, it is important to determine if a record already exists for the customer. In addition, there may be instances where there are two existing records, or duplicate records, for the customer. When this occurs, we often see that one account has a Social Security Number and one does not. Following the instructions below ensures that any duplicate records can be found and addressed accordingly.

Searches are performed within the Customer Search window, in the Customer module.

While searches are most commonly performed from the Quick Search tab, any of the active tabs can be used in the search process. In addition, once you are case managing a customer, and their Customer ID is known, you may search for the customer using the Customer ID field.
SEARCH OPTIONS
Before conducting a customer search, staff should customize their search options that will be displayed in the Title Bar.

To access the search options, click on the Options button at the bottom left of the screen.

The Customer Search Result Columns pop-up window displays all the fields that can be added to the title bar. These fields can be selected or de-selected by clicking on the checkbox next to them.

The number to the right of the field name indicates the order in which the fields will be displayed on the title bar. Staff can change this order by manually re-numbering the selected fields or by clicking and dragging the sections in the gray preview title bar at the bottom of the pop-up.
Helpful fields that staff should consider including in their search results are: **OSOS ID, Seeker Name, Status, Date of Birth, and City.**

*Seeker Name* and *Date of Birth* are both important fields to include, as staff can use this information to easily identify potential duplicate OSOS records. Duplicate records should be emailed to [Help.OSOS@labor.ny.gov](mailto:Help.OSOS@labor.ny.gov)

Once staff have selected the fields and the display order that will be most useful to them, click the **Set as My Default** checkbox and then click the **Save** button. This ensures that these settings will remain as the default settings used each time that the staff member runs a customer search in OSOS. These settings can be changed at any time, either to alter the defaults or to run a single search.
QUICK SEARCH
A customer search is most commonly performed from the Customer Search window, Quick Search tab. There are numerous ways a customer search can be conducted depending on the information the staff has obtained. Staff will mainly search by Customer Full or Partial Name.

SEARCHING BY CUSTOMER FULL OR PARTIAL NAME
Staff may search for a customer record by full or partial name. Enter as much information as is known in the Last Name and First Name data fields.

As a best practice, staff should perform a name search for any customer they are working with to determine if duplicate OSOS records exist for the same customer. If a duplicate record is found, please contact help.osos@labor.ny.gov

Click the Search button.
If there is only one result returned, OSOS will display the customer's record. It will default to the **General Information** tab of the **Customer Detail** window.

If there is more than one customer record matching the search criteria, the customers' information will be displayed in the window below the data entry fields.

If the search yields more than one result, staff can view all the records by first clicking on the check box in the top left-hand corner of the gray title bar. This will select all the results. Staff can then click on **Detail** at the bottom of the screen to review all selected customer records.
<table>

</tr>
</tbody>
</table>
OSOS will display the customer record of the first customer selected. Use the arrows at the top right corner of the screen to toggle through the customer records. Staff can review the records to identify the customer they were searching for, as well as to identify potential duplicate records.
SEARCHING BY FULL SOCIAL SECURITY NUMBER OR NY ID
Once staff are case managing a particular customer, they can search by Customer SSN or Customer ID in the Quick Search tab to find the customer record.

Then click the Search button at the bottom of the screen.

If there is a matching record, OSOS will display the customer's record. If there is no matching record, the system will display No Matches Found in the upper right-hand corner.

The search can be based on either SSN or ID number, but it cannot be based on both. Including data in both the Customer SSN field and the Customer ID field will result in an error message.
If an existing customer record cannot be found, click the **New** button at the bottom of the screen to create a new customer record.

For detailed information on searching for a customer record, please see the [Performing a Customer Search OSOS Guide](#).

For detailed information on creating a customer record, please see the [Creating a Basic Customer Record OSOS Guide](#).
BASIC CUSTOMER RECORD
Creating or updating a basic customer record requires data entry in seven tabs. These tabs are located in the Customer module, Customer Detail window. They are:

- Gen. Info tab (General Information)
- Eligibility tab
- Add'l Info tab (Additional Information)
- Objective tab
- Work Hist. tab (Work History)
- Ed/Lic tab (Education/Licenses)
- Skills tab

All required fields in OSOS are indicated by a green dot in front of the field name.
To save the basic customer record, all required fields must be completed. However, to best serve the customer, staff should always enter as much information as possible.

Do not click Save until all the required information, in all tabs, is recorded for the complete basic customer record. If Save is selected before the data is completely entered, it will generate an error message. If this error message does appear, you will still be able to continue with the record by clicking OK and continuing to enter the information. Instead, when creating the customer record, simply select the next appropriate tab. Click Save when all the required information has been entered.

Staff must review all of the information in the customer record each time they work with the customer. This ensures that the record reflects the most up to date and accurate information.

BASIC CUSTOMER RECORD DETAILS
For detailed instructions on creating a basic customer record, please see the Creating a Basic Customer Record OSOS Guide.

Below are some noteworthy points for filling out the tabs located within the Customer Detail window.

- **Gen. Info tab**
  - **SSN**: Select the SSN button. If the customer provides their SSN it must be entered. Having an SSN in OSOS is very important because customer SSNs are used to match against wages and determine if the customer is employed. This also affects performance measures. Entering a customer's SSN helps prevent duplicate records. If the customer does not provide their SSN, select Not Disclosed. The SSN field is located "behind" a button in order to keep it as confidential as possible.
  - **Ethnic Heritage & Race**: Select the Ethnic Heritage & Race button. If the customer provides Ethnic Heritage and/or Race information, select the most appropriate choice. If no information is provided, select Not Disclosed. This information is located "behind" the button in order to keep it as confidential as possible. NYSDOL is required to collect this information under the Workforce Innovation and Opportunity Act (WIOA) as a part of our federal reporting.
  - **Education Level** - Select the highest level of education completed.
  - **Portfolio Level** - The record will default to JobZone Adult. You may keep this designation and therefore create the JobZone account along with the new OSOS record. Or, if the youth is younger than 18, you can choose the highest level of education completed (ex: Tenth Grade) in order to create a CareerZone account along with the new OSOS record.
Username and Password - While this is a required field, any record with Portfolio Lvl set to JobZone will not use these fields for JobZone access; therefore anything may be entered that is at least 6 characters in length. All Portfolio Lvl's other than JobZone Adult will use these fields as login credentials for CareerZone. So, in this case, the Username must be unique, because the youth will use to login to their CareerZone account. Both the Username and Password must be 6 characters in length.

Note: If you are creating a new customer record, the Portfolio Level selected should reflect the highest grade level that the youth has completed. If an OSOS record already exists for the youth, do not change the Portfolio Level in OSOS.

- **Eligibility** tab
  - **Income Info** - Lower Living Standard and Income 70% LLSIL are required fields. Select Yes, No or Not Disclosed. Where appropriate, select Yes only for Lower Living Standard OR Income 70% SSIL. Do not select Yes for both. The Income Eligibility Guidelines can be found on the [DOL Programs & Tools webpage](https://www.dol.gov), under Income Eligibility Guidelines.
  - **High Poverty Area**: This field is required for any customer 25 years old or younger. It is one of the fields that determines eligibility for the WIOA Youth Program. Information to determine High Poverty Area can be found [here](https://www.dol.gov).
  - **Disability Status**: If Disabled is selected, staff must select at least one Disability Category. Please note, Not Disclosed is an option if the customer does not want to identify their disability.
  - **Migrant Seasonal**: If Yes is selected, additional required fields will be displayed.

- **Add'l Info**
  - **Service Veteran**: Select Yes, No, or Not Disclosed. If No or Not Disclosed is selected, no additional information is required. However, if Yes is selected, it will display additional required fields.
  - **Selective Service**: All males over the age of 18 must be registered with Selective Service and this information must be recorded. Select the check box and enter the participant's Selective Service number. If the participant does not know their Selective Service number, click on [Register/Lookup](https://www.sss.gov). This opens the Selective Service System website in a new browser tab. Use this site to conduct online verification of selective service registration using the participant's last name, SSN and date of birth.

- **Pgms/PA**: This tab does not contain any required information. However, if your customer discloses that they are receiving public assistance, such as free or reduced school lunch, it should be recorded here. Select the type of public assistance.
assistance using the check box next to the title, and then fill in the Reg Date. If the customer is unsure of when they began receiving public assistance, ask them for their best approximation.

- **Objective**
  - **Employment Objective:** This summarizes the customer's qualifications and desired position.
  - **Desired O*Net:** At least one O*Net title is required. Click the Add a Job Title button. Then, click the O*Net Titles button. This opens the Select O*Net Webpage Dialogue box. Use the Keyword search at the bottom or the O*Net folder hierarchy to find the customer's desired job title. Check the box next to the job title. Then click Select.
  - **Acceptable Job Locations:** Enter at least one Acceptable Job Location.

- **Work History**
  - Select New Job Entry to enter a work history for the customer. Enter all required fields and any additional information provided by the customer.
  - If the customer does not have any Work History, select No Information Provided.

- **Ed/Lic**
  - There are three required sections within this tab; Certificates/Licenses, Schools, and Professional Associations. If the customer does not have information to enter in these sections, select No Information Provided under each section.

- **Skills**
  - **Additional Skills Text:** Enter any additional skills and abilities that are important to the customer's job performance.

Once the Skills tab is completed, and the entire basic customer record has been entered, click the Save button at the bottom of the screen. Record Saved will briefly be displayed in the upper right-hand corner when the record is successfully saved. If there are fields missing information, an Error Message pop up box will indicate the error.
CASE NOTES
It is important to document case notes in the customer record. It is best practice to record case notes every time staff work with the customer. Case notes are documented in the Customer module, Customer Detail window, Comments tab.

Case notes should include details of the appointment that are not recorded anywhere else in OSOS. They should be clear, factual, relevant to employment, and show a logical progression. Case notes allow staff to gain a more complete understanding of the customer's situation.

It is best practice to use the SENSE model when documenting case notes. Details on the SENSE model can be found in the Writing an Effective Youth Program Case Note in OSOS Guide.
COMPREHENSIVE ASSESSMENT

Information documented in the Comprehensive Assessment window is important for recording the customer's barriers and challenges. For detailed instructions on completing the Comprehensive Assessment, please see the Comprehensive Assessment & Supplemental Data Guide.

Many of the fields in Comp Assess are used to determine eligibility in the WIOA Youth program. However, for the purposes of the OYCEA grant, providers should only enter information that is known. If the information is unknown, please select Not Disclosed.

The Comp Assess window is located in the Customer module.

When information is entered into the Comprehensive Assessment section, all required data fields (as indicated by a green dot) must be completed in order to save the record.
Below are some noteworthy points for filling out the tabs located within the Comprehensive Assessment window.

**Employment tab**
- **Youth Needing Additional Assistance**: Local area determines what youth will fall into this category. For the purposes of this grant, select **No**.
- **Cultural Barriers to Employment**: This information is collected as a requirement under WIOA and is not related to this grant. Select **Not Disclosed**.

**Education tab**
- **Basic Skills Deficient/Low Levels of Literacy**: Providers do not need to determine basic skills deficiency. Only enter this information if it is known. If unknown, select **No**.
- **English Language Learner**: An English Language Learner will have limited ability in speaking, reading, writing or understanding English. They may also meet one of the following two conditions:
  - Their native language is a language other than English; or
  - They live in a family or community where a language other than English is the main language.

**Financial tab** - Do not enter any information into this tab.

**Family tab**
- **Marital Status** - Select the option that most closely reflects the customer’s marital status. Or, select **Not Disclosed**.
- **Family Status** - Select the option that most closely reflects the customer's family status. In most cases, such as a non-parenting youth, the customer is considered an **Other Family Member**. Or, select **Not Disclosed**.
- **Is Customer parenting youth?** - Female youth customers are considered parenting once pregnant. Alternatively, male youth customers are only considered parenting once their child is born.

**Female customers will have the additional required field Is customer pregnant? If Yes is selected, staff must enter a Delivery Date.**

**Health** tab and **Treatments** tab are both greyed out and not accessible. They require no action.

**Legal tab** - There is no required information located in this tab. However, if the customer discloses that they are an ex-offender, staff should select **Yes**. If the customer identifies as an
ex-offender, record relevant comments in the Customer Detail window, Comments tab. Information recorded would include when the conviction occurred, and whether the customer has work restrictions. Comments must be specific to job search restrictions and work search restrictions only.

**Housing tab**

- **Current Housing** - Select the option that most closely reflects the customer's current housing status. Many youth will not own or rent their own home, so this information should be based on their caretaker. For instance, if the youth lives in a home owned by their parent(s), select Own. Or, select Not Disclosed.

**Transportation tab**– License Information is populated from the Ed/Lic tab under the Customer Detail window. It is important to record applicable Transportation Information to identify if the customer can access services and obtain education or employment. Check any boxes that apply and record relevant comments related to work restrictions or job search restrictions in the Customer Detail window, Comments tab.

**Comments** - Do not use the Comments tab located within the Comp Assess window. Any Comments must be recorded in the Customer Detail window, Comments tab.
SERVICES
Staff use Services in OSOS to record the services provided to the customer.

ENTERING AN ACHIEVEMENT OBJECTIVE
In order to enter a Youth Service for the customer, an Achievement Objective must first be saved in the customer record.

Select the Customer module, Services window, Achievement Objectives tab. Select the New Objective button at the bottom of the screen.
Enter the **Achievement Objective**, **Type of Goal**, **Planned Start Date**, **Actual Start Date**, **Evaluation Date**, **Goal Attainment** and **Planned End Date**. Click **Save**.

<table>
<thead>
<tr>
<th>Achievement Objective</th>
<th>Type</th>
<th>Attainment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Develop a long term career goal</td>
<td>Work Readiness</td>
<td>Set, but attainment pending</td>
</tr>
</tbody>
</table>

**Goal Justification**

**Evaluation Date**

**Actual Start Date**

**Planned End Date**
ENTERING THE SERVICE

Once there is at least one Achievement Objective saved in the customer record, you can enter a Service. Select the Services tab.

Select the New Service button.
This navigates to the **Provider** module, **Offering Search** window, **Quick Search** tab. Select the **General Info** tab.

Before searching for the Service, click the **Options** button to customize your search results. This opens the Offering Search Results Columns Webpage Dialogue box.
Select the following display results, using the order provided below:

- **Provider Name** (1)
- **Service Name** (2)
- **Service Description** (3)
- **Location Name** (4)

Select the **Set as My Defaults** check box. This will ensure that your selections will be saved as default search options and will not need to be selected each session.

Then, click **Save**.
This brings you back to the Provider module, Offering Search window, Quick Search tab. Select the General Info tab.

Verify the correct WIB is selected, enter your organization's name into the Provider Name field and click the Search button. The search results will be presented at the bottom.

Select the Description column to sort the results alphabetically by Description. Then scroll down to view the OYCEA Syracuse offerings.

All of the Services for OYCEA participants will be identified by listing OYCEA Syracuse in the Description. Do not select any Service that does not have this description.
Select the appropriate service that is being provided and click **Schedule**.
This brings you to the Customer module, Services window, Services tab. Select the Service using the check box in the far left column.

Enter the following fields in the Detail section: Plan Start Date, Plan End Date, and Actual Start Date.

Many services may be provided in one day. If this is the case, enter the same date for the Actual Start Date and Actual End Date of the service. From the drop downs, select options for Completed Successfully (yes/no), Program Service Type (will be Youth Services except when entering a Follow-up Service. This will be addressed later in the Guide), Program (OYCEA City of Syracuse), and the appropriate Achievement Objective.

If the service provided is ongoing, do not enter an Actual End Date until the service is complete. Instructions for closing a service are provided later in this guide. From the drop downs, select Program Service Type (will be Youth Services except when entering a Follow-up Service. This will be addressed later in the Guide), Program (OYCEA City of Syracuse), and the appropriate Achievement Objective.

Click the Save button.

Save
Next, you will attach the funding. Enter 1 into the **Total Funding** field. Then click the **Add** button.
The Funding Webpage Dialogue box will open. For services that start prior to July 1, 2019, select Youth Statewide 15% funding for 2018. For services that start July 1, 2019 or after, select Youth Statewide 15% funding for 2019.

Enter 1 in the Obligated Amount field. This will automatically populate the Obligated Percentage field as 100. Click OK.
The appropriate funding has now populated the **Funding** section. Click **Save** at the bottom of the screen.
CLOSING A SERVICE

It is important that Services are closed when appropriate. Funded services, other than Follow-Up Services, that remain open will prevent a customer from exiting their enrollment.

To close the Service, navigate to the Customer module, Services window, Services tab. Select the Service that has ended and must be closed.
Enter the **Actual End Date** and select **Completed Successfully** (yes/no). Click **Save**. The service is now closed.
FOLLOW UP SERVICES
The process for entering follow up services is similar to the directions above. Navigate to the Customer module, Services window, Services tab. Select the New Service button. This will bring you to the Provider module, Offering Search window, Quick Search tab. Select the General Info tab.

Verify the correct WIB is selected, enter your organization's name into the Provider Name field and click the Search button. The search results will be presented at the bottom.

Select the Description column to sort the results alphabetically by Description. Then scroll down to view the OYCEA Syracuse offerings (as indicated in the Description column). Select Follow up (as indicated in the Service Name column).

Click the Schedule button.
This brings you to the Services window, Services tab.

Enter Plan. Start Date, Plan. End Date, Actual Start Date, and Actual End Date. Then, select the Program Service Type. Last, select the appropriate Achievement Objective associated with this service.

When entering follow up Services in OSOS, the Program Service Type is always Follow up. Also, is important to note that the Actual Start Date for the follow up service must be at least one day after the Actual End Date of the last enrolling/non follow up service.

When this required information is entered, click the Save button at the bottom of the screen.
Next, you will attach the funding. Enter 1 into the **Total Funding** field. Then click the **Add** button.
The Funding Webpage Dialogue box will open. For services that start prior to July 1, 2019, select Youth Statewide 15% funding for 2018. For services that start July 1, 2019 or after, select Youth Statewide 15% funding for 2019.

Enter 1 in the Obligated Amount field. This will automatically populate the Obligated Percentage field as 100. Click OK.
The appropriate funding has now populated the Funding section. Click Save at the bottom of the screen.

Enter a case note in the Customer module, Customer Detail window, Comments tab to provide details regarding the Follow up service.
