The table above provides summary information on PUA claims through the week ending 1/30/2021.

- Pandemic Unemployment Assistance (PUA) is a new Federal program that was created as part of the Coronavirus Aid, Relief, and Economic Security (CARES) Act. PUA provides financial assistance for individuals who are unable to work due to the coronavirus pandemic, but do not qualify for traditional unemployment insurance (UI).
- Not all PUA claims are included in the UI initial claims count. Those PUA claimants who applied for UI, were denied UI benefits, and were later approved for PUA are included in the counts of initial UI claims.
- Beginning in mid-April 2020, the State's application process was modified so PUA claimants no longer were required to be denied UI benefits before being determined eligible for PUA. In these instances, the PUA claims are not included in the counts of initial UI claims.

Glossary

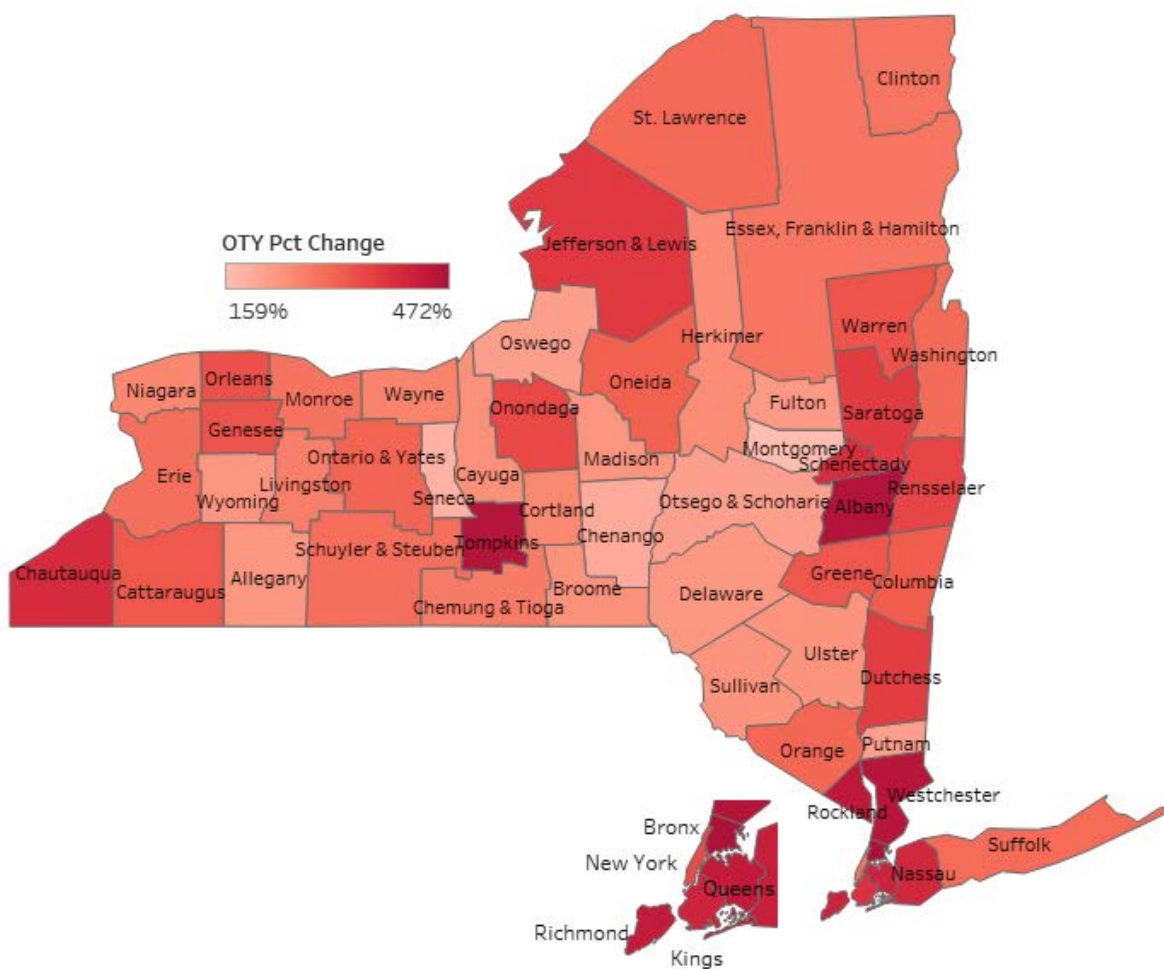

Initial Claim – This category includes both new and additional claims, both of which signify a new spell of unemployment.

New Claim – The first initial claim filed to request a determination of entitlement to and eligibility for compensation.

Additional Claim – A subsequent claim filed during an existing benefit year due to new period of unemployment. Someone who files a new claim and collects benefits, finds another job but is laid off again within the same year would be considered an additional claim.
