Strategic Planning Elements

Local Workforce Development Areas (LWDAs) and Regional Demand Lists are now maintained online. Changes to the Demand Lists can be made by following the directions on the webpage.

I attest that the priority ranked list of the LWDA’s demand occupations was last updated on [specify date in the text box below].

February 28, 2021

How is this information shared with the Local Workforce Development Board (LWDB)? What was the last date on which it was shared?

The amended list was discussed by researchers at the Workforce Development Board’s meeting on January 26, 2021, The Executive Committee meeting in March 2021, with our Career and Technical Education (CTE) Advisory Board on April 23, 2021, and with the Tompkins County Legislature’s Housing and Economic Development Committee on June 24, 2021. Further discussions with the full Workforce Development Board are pending when meetings resume in September 2021.

a. Provide an analysis of regional economic conditions, including:

i. Existing and emerging in-demand sectors and occupations; and

The regional economy has changed as a result of the COVID-19 pandemic, and continues to do so. The 2020 Economic Recovery Strategy for the Southern Tier was organized according Work Groups representing these industries: Advanced Manufacturing, Food & Agriculture, Innovative Culture, Tourism Business Development. Clean energy and climate jobs are also a focus. Occupational groupings with the largest number of current online job ads include hospitality & retail, healthcare, and tech-based occupations.

ii. The employment needs of businesses in those sectors and occupations.

Two of the region’s top 5 pre-andemic industries, Retail Trade and Leisure & Hospitality, were affected disproportionately by the pandemic across the US, and this is also the case in the Southern Tier and in Tompkins County.

Businesses in all sectors report a need for people and skills -- a situation which was true prior to the COVID-19 pandemic and is heightened now. Hesitancy to return to work, combined with time out of the workplace over the past 16 months, and changes in business hiring trends.

b. Describe the knowledge, skills, and abilities needed to meet the employment needs of businesses, including those in in-demand sectors and employing individuals in demand occupations.
Every industry reports the need for workers with professional and communication skills. These include: active listening and speaking skills, social perceptiveness, critical thinking, and good time management. Collectively these are viewed as attributes that enable employment retention and advancement. Because of the worker shortage, some businesses have expressed a willingness to take on more workers who are simultaneously enrolled in training, to maximize "earning and learning" at the same time. This is a positive development and is being encouraged in all industries, and particularly in manufacturing and healthcare occupations.

c. Provide an analysis of the regional workforce, including:

i. Current labor force employment and unemployment numbers;

Regional Labor force employment: 60.0%
Regional unemployment: 4.6%
Tompkins County unemployment: 4.3% (all as of June 2021)

ii. Information on any trends in the labor market; and

At the writing of this plan, there is a particular shortage of workers for the summer hospitality season, as hotel rooms and tourist attractions are securing bookings. This is a major concern for businesses in city and rural geographies.

iii. Educational and skill levels of the workforce in the region, including individuals with barriers to employment.

The education and skills characteristics of residents and workers in the area covered by the Tompkins County Workforce Development Board are a mixture of very highly educated professionals, researchers, and education experts (given our proximity to Cornell University), and populations in both our city- and rural areas who for a variety of reasons have been excluded from training and employment opportunities.

Educational and skill levels, as well as employment in Tompkins County, exhibit all the signs of a region where higher education is the dominant industry. Unlike the relatively steady levels of employment participation statewide, Tompkins County’s labor force fluctuates up and down throughout the year and peaks in fall and spring, when colleges and universities are in session. During semesters, faculty, staff and students are actively employed in the labor force, and during summer and winter breaks many leave the area.

Our recent skills analysis shows that employers view the scarcity of skills in these terms:

Entry-level production and service workers -- There is a demand for workers for positions that do not require a specific education level, except for entry-level employment skills requiring a 4th grade reading or math level.
Service industries -- Here the skills shortage is viewed as "finding someone committed to the job, with employability skills" and problem-solving skills. The observation is that ability to work around stressful situations is often negatively triggered when there is any kind of logistical barrier to work.

Basic computing skills -- Digital and information literacy skills are lacking, both for older and for younger workers, and lack of access to the internet is included here. This is having an impact on job search, the learning of new software packages and apps commonly used in the workplace, and the ability to take part in on-line training courses offered by local providers.

Tradespeople with "middle" skills -- Skills that require some formal education or training below a 4-year degree are needed. Jobs in the construction and manufacturing industries require workers with a 2-year associate's degree, a micro-credential, an industry-recognized credential and/or a number of years on the job. These education levels remain in short supply.

Specialized mid-level skills -- Managers in healthcare, technology, accounting and education often require 4 years or more of college education, and are also in short supply. There are not enough of this range of skills in the County, and this is bringing many employers to the decision to hire from beyond Tompkins County and in some cases, to hire remotely from different parts of the US.

d. Provide an analysis of workforce development activities, including education and training, in the region.

i. Identify strengths and weaknesses of these workforce development activities.

That Strengths are the number of high-quality education providers of entrepreneurial skill training with the addition of a downtown incubator that has services designed to assist early stage companies realize success. In addition, we have robust SBDC programs and a small business training program through one of our local credit unions. Additional strengths are a strong partnership of local workforce development providers and multiple grass roots training programs. One of the Tompkins Workforce Development Area challenges has been a lack of in-depth occupational training programs and a supply of individuals to enter the ones existing. Our most recent post-pandemic workforce strategy, The New Possible, has identified a current and future list of in-demand occupations and a focus on specific sectors, which our local community college is using to make revised decisions about training courses and curriculum. However, significant investment is needed to bring more learners and workers into "earn and learn" opportunities so that businesses can expand with confidence.

ii. Does the local area have the capacity to address the education and skill needs of the local workforce, including individuals with barriers to employment, and the employment needs of businesses? Please explain.

Yes, particularly as we emerge from the COVID-19 pandemic, the Tompkins Workforce Development Area has multiple quality programs designed to serve individuals who need
a skills re-fresh as they return to work, or those who choose to follow a different career pathway, or those who are even more disadvantaged in the jobs market than they were prior to 2020. Our Board's strategy is to begin looking more closely at ALL local workforce development programs and put in place new measurements for race, equity and inclusion.

e. Describe the LWDB's strategic vision and goals for preparing an educated and skilled workforce, including youth and individuals with barriers to employment.

The Tompkins County Workforce Development Board's mission is to enhance the productivity and competitiveness of the Tompkins County economy by developing and coordinating resources that surpass employer workforce needs and facilitate employment and skills development for individuals. Our strategic framework for this is one of "collective impact," based on 1) a shared vision for change, 2) data collection and measuring results, 3) Participant activities coordinated through a mutually reinforcing plan of action, 4) continuous communication, and 5) making the Tompkins County Workforce Development Board the "backbone" for the entire initiative.

For youth: We plan to focus our efforts on maximize opportunities for youth to participate in the green economy and climate jobs. Much of our local research with youth people reflects this goal and our WIOA Youth and SYEP programs are being re-focused in this way.

For individuals with barriers to employment: As a result of "The New Possible" research and the social movement of the moment, we are placing an intensified effort on our dedication to the many definitions of inclusion. See details in the next section.

i. How do the local area's workforce development programs, including programs provided by partner agencies, support this strategic vision?

Our strategy document "The New Possible" was commissioned during the pandemic and spells out changes in our local workforce development area, making making several key recommendations that will help to better coordinate our local system and improve both measurements and outcomes linked to all local programs. First, we plan to review all WIOA programs and workforce development programs provided by local partner entities, for their effectiveness in skills improvement, employment, job retention and advancement for all disadvantaged groups. This is our priority for race, equity and inclusion. This approach has been approved by our Board and Committees.

ii. How will the local area, working with the entities that carry out the core programs, align available resources to achieve the strategic vision and goals?

Our local workforce development system has been negatively impacted by the reduction of both the DEI and TET grants, and an allocation of WIOA funds which remains flat. We are advocating for investment in the workforce development sytem by Federal, State and Local governments. In addition to this, we are working to attract new funds and grants that will enable us to both meet the needs of our local economy and to realize our new vision for workforce development. The local area has utilized the MOU process to
strengthen relationships and collaboration with partners. Through the efforts mentioned above, and our focus on securing American Rescue Plan funds, we hope to identify additional funds to meet our strategy goals.

f. Describe the LWDB’s goals relating to performance accountabilities measures. How do these measures support regional economic growth and self-sufficiency?

It is the Tompkins County Workforce Development Board’s belief that operating quality programs will result in meeting WIOA performance goals. The provision of quality programming designed to assist customers to enter "Earn and Learn" entry-ways for in-demand occupations will support regional economic growth.

**Local Workforce Development System**

a. Identify the programs, whether provided by the Career Center or any partners, that are a part of the local area’s workforce development system, including:

i. Core programs;

- All of the core programs are provided at the Tompkins Workforce NY Career Center by onsite partners with the exception of the NYS Commission for the Blind.

- WIOA Title I Adult and Dislocated Worker Programs are operated by the Tompkins Workforce NY Career Center, with oversight and direction provided by the Tompkins County Workforce Development Board and our One Stop Operations and Oversight Committee.

- WIOA Title I Youth Programs are competitively bid and operated by the Tompkins Workforce NY Career Center.

- WIOA Title II Adult Ed is competitively bid by the NYS Education Department, and locally the Title II programs are operated by Tompkins Seneca Tioga BOCES (TST BOCES).

- WIOA Title III Wagner Peyser is overseen locally by the NYS Department of Labor.

- WIOA Title IV is overseen by ACCES-VR and by New York State Commission for the Blind.

- Other locally delivered programs also comprise our workforce development system, including the Arrival To Destination (A2D) program, programs focus on opioid treatment and reintegration into work, re-entry programs for prison-leavers, and other programs and pathways overseen by a range of businesses and community partners.

ii. Programs that support alignment under the Carl D. Perkins Career and Technical Education Act of 2006; and

- Tompkins Cortland Community College is the grant recipient of the Perkins funds and currently has active programming. The Tompkins County Workforce Development Board Executive Director is a member of the Perkins Advisory Committee and provides feedback on their plan.
iii. Other workforce development programs, if applicable.

Migrant and Seasonal Farmworker Programs - Pathstone Corporation

Job Corps

Trade Adjustment Assistance (TAA) and Unemployment Insurance (UI) Programs - New York State Dept of Labor

Senior Community Service Employment Programs (SCSEP) National Grantee: Associates for Training and Development

Housing and Urban Development Employment and Training - Tompkins Community Action

b. Describe how the local area will ensure continuous improvement of services and service providers.

We will ensure continuous improvement of services and service providers by measuring improvements in the way One-Stop partner programs work together to serve job seekers, workers and businesses. This requires new thinking following the COVID-19 pandemic as people return to work, consider new training opportunities, and re-skill for different positions. Key elements of this continue to be the blending of resources where appropriate and co-enrollments/referrals between partner programs to achieve success with harder-to-reach participants with multiple barriers to work. Additional measures of success will include an increase in 1) the skilling of workers for revised in-demand occupations, 2) the expansion of climate-based / green economy jobs and their coordination with workforce development programs, and 3) new measurements and targets for achieving race, equity and inclusion. The new NYS DOL Remote Program Monitoring process is an opportunity for us to enhance these measures.

c. Describe how eligible providers will meet the employment needs of local businesses, workers, and jobseekers.

The Board will provide information and guidance on "earn and learn" approaches to career pathways, sector strategies, local in-demand occupations, growing industries and skill sets to eligible providers of WIOA services. Local providers will be encouraged to utilize this information when designing services as well as training programs.

d. Describe the roles and resource contributions of the Career Center partners.

WIOA Title I Adult, DW and Youth provided by the Tompkins Workforce NY Career Center.

WIOA Title II Adult Education provided by Tompkins Senaca Tioga BOCES.

WIOA Title III Wagner-Peyser, TAA, Veterans and UI Staff provided by New York State.
Workforce Development and Career Pathways

a. Describe how the LWDB will facilitate the development of career pathways, including co-enrollment in core programs when appropriate.

As a result of the COVID-19 pandemic, all local workforce development partners are recognizing the significant structural changes to our local economy, including the increased shortages of both skills and workers. The Tompkins County Workforce Development Board will re-consider career pathways within the framework of "Earn and Learn," meaning that opportunities will be shaped for training and participating in employment at the same time. This is to acknowledge that with an increased shortage of workers and the urgent need of businesses for skilled workers, we as a local economy can no longer think of "training first, then employment afterward." The Board will continue to host an Industry Briefings series, identify gaps in training, map those "Earn and Learn" pathways for individuals and businesses, and encourage the co-enrollment of participants in core programs that are designed to both train, and to help workers envision their future.

b. Describe how the LWDB will improve access to activities leading to recognized postsecondary credentials.

The TCWDB will focus on activities that meet the needs of local businesses, include post-secondary credentials with an emphasis on advance manufacturing, health care and hospitality/tourism. Our most recent labor market research emphasizes the development of a compendium of short-term courses for employers and jobseekers which, as a result of changes in jobs, focus on: a Work-From-Home Excellence Program, digital and information literacy, hardware and software basics, and health and safety in the workplace. These, combined with a professional employability course are the immediate focus.

i. Are these credentials transferable to other occupations or industries ("portable")? If yes, please explain.

The underlying goal for the design of these courses and the credentialing structure is to raise the employability standards embraced by Tompkins County. In addition, we are promoting the concept and practice of a "guaranteed interview" for everyone who applies for a job. These micro-credentials, combined with a revised willingness of local businesses to meet with all job applicants in a "turn no one away" approach will result in transferability and improve the likelihood of labor market attachment.

ii. Are these credentials part of a sequence of credentials that can be accumulated over time ("stackable")? If yes, please explain.

Stackability is lacking in some of our available local offerings. A large portion of this is due to the state certification and licensing requirements. In New York State these challenges are due to the credentialing being controlled by different state agencies. However, we do see advanced manufacturing an area of opportunity for stackable credentials as well as
Access to Employment and Services

a. Describe how the LWDB and its partners will expand access to employment, training, education, and supportive services for eligible individuals, particularly individuals with barriers to employment.

The Tompkins County Workforce Development Board and Tompkins County Office of Employment & Training Director will combine efforts of partner programs identified in the WIOA legislation and local community based organizations. It is essential that programs with expertise in serving special communities assist and guide employers to identify, hire and train qualified workers with disabilities, limited English proficiency, justice involvement backgrounds, and other underrepresented communities in the workforce.

b. Describe how the local area will facilitate access to services though the One-Stop delivery system, including remote areas, through the use of technology.

Increase use of website to provide information on services provided remotely, the use of online training and resources, and encouraging partner agencies to utilize existing internet based resources (JobZone and Career Zone).

c. Describe how Career Centers are implementing and transitioning to an integrated technology-enabled intake care management information system.

The use of technology enabled case management information system in New York State is determined on a state agency level. We will encourage local partners to utilize the One Stop Operating System that allows multiple partners access.

d. Provide a description and assessment of the type and availability of programs and services provided to adults and dislocated workers in the local area.

All of the required WIOA Title I employment and training activities are provided. These activities include the following career services: Eligibility for Title I services; outreach, intake and system orientation; initial assessment; labor exchange services; referrals to programs; labor market information; information on local workforce system performance; information on performance and program cost of eligible providers; referrals to supportive services; UI information and assistance; financial aid information; comprehensive assessment; individual employment plan development; career planning and counseling; short-term pre-vocation services; internships and work experiences; out of area job search and relocation assistance; financial literacy services; English language acquisition and integrated education; workforce preparation; and follow-up services. The MOU partners commit to providing customers with disabilities with physical and programmatic accessibility to facilities, programs, services, technology and materials, including appropriate staff training and support. In addition, the Tompkins Workforce New York Career Center employs a full-time Disability Resource Coordinator which trains staff, coordinates services and provides services to customers with disabilities both onsite at the career center and through partner agencies.

ii. Technology and materials for individuals with disabilities; and

iii. Providing staff training and support for addressing the needs of individuals with disabilities.

During quarterly meetings of One-Stop System partners, the One-Stop System Operator will facilitate the planning of cross-training of partner program staff. Cross-training will include the training of system partner staff in addressing the needs of individuals with disabilities. The partner agencies have agreed that cross-training efforts will be regularly reexamined to ensure that we are reaching the appropriate staff with appropriate efforts.

iv. Describe the roles and resource contributions of the One-Stop partners related to the nondiscrimination requirements of WIOA (section 188), and applicable provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.).

Business Engagement

a. What strategies and programs, including training programs, will be used to facilitate engagement of businesses, including small businesses and businesses in in-demand sectors and occupations?

There are existing sector-based initiatives that were created based on growth in industries identified by the Regional Economic Development Council priorities and sectors important to the growth and quality of life in Tompkins County. These initiatives are a primary method of employment engagement. In addition, economic and workforce development create yearly schedules to rotate joint businesses retention and expansion visits in key sectors to ensure we are regularly talking to businesses about both their economic and workforce development needs. In addition to business retention/expansion and sector-based initiatives, programs such as OJT, TANF funded Summer Youth Employment Programs, WIOA Youth Work Experience programs include employer engagement as a component of training programs. There is currently a partnership effort underway between economic development, workforce development and an employer collaborative in the manufacturing sector, to design a method and curriculum for ensuring an entry-level jobs pathway for these occupations in our local area.

WIOA Title I Adult and Dislocated Workers contracts are awarded to the Tompkins County Office of Employment and Training to provide all career and training services, job placement and monitoring. WIOA Youth contracts are competitively procured through a Request for Proposal (RFP) process. The Workforce Development Board Youth Oversight Committee, with board staff assistance, create the RFP, seek board permission to release the RFP, assess proposals, and provide recommendations to the full board regarding the award of contracts.

iv. The LWDA meets or exceeds all performance goals.

We are in compliance with the above information.

Tompkins County Workforce Development Board
WIOA YOUTH Basic Skills Deficiency Policy

Purpose
The purpose of this policy is to establish guidelines for determining eligibility of youth based on Basic Skills Deficiency criteria.

Background
The Workforce Innovation and Opportunity Act 20 CFR 681.290(a)(1) states that LWDBs must use standardized testing instruments to demonstrate that a youth reads and/or computes math at or below the 8th grade level.

WIOA 20 CFR 681.290(b) states that LWDBs must create a basic skills deficiency policy for youth who are unable to compute or solve problems, or read, write or speak English at a level necessary to function on the job, in the individual’s family, or in society.

In order to assess whether a youth meets the Basic Skills Deficiency definition, LWDBs must:

- Use valid and reliable assessment(s) that are appropriate for the target population, showing that the youth is unable to demonstrate the competencies described in the definition;
- Use appropriate, fair, and cost-effective assessments that are well-matched to the test administrator’s qualifications, easy to administer, and have results which are easy to interpret
- Provide reasonable accommodation in the assessment process, if necessary, for special populations (i.e. individuals with disabilities and individuals who are English Language Learners)

Policy
For eligibility under WIOA using “Basic Skills Deficiency” as the youth’s eligibility criteria, Out of School Youth (OSY) must be:

- between the ages of 16-24 at the time of eligibility determination, and
- have a high school or HSE diploma, and
- be basic skills deficient, and
- be low income.

Being Basic Skills Deficient alone does not make a youth eligible for WIOA services. All four (4) criteria must be met: age 16-24, HS/HSE diploma, Basic Skills Deficient and low income.

For eligibility under WIOA using “Basic Skills Deficiency” as the youth’s eligibility criteria, In School Youth (ISY) must be:

- between the ages of 14-21 at the time of determining eligibility, and
- attending or enrolled in secondary or for-credit postsecondary school at the time of eligibility determination, and
- be low income, and
- be basic skills deficient (either deficient in basic skills or an English Language learner who is deficient in basic skills).

Being Basic Skills Deficient alone does not make a youth eligible for WIOA services. All four (4) criteria must be met: age 14-21, attending/enrolled in school, low income, and Basic Skills Deficient.
It is the policy of the TCWDB to determine eligibility under Basic Skills Deficiency by using one (1) of the following assessments. Use of previous basic skills assessment results are permitted if the assessments were conducted within the past six (6) months.

**Reasonable Accommodations** will be provided for individuals with documented disabilities and individuals who are English Language Learners. Accommodations to include, but not be limited to: extending test taking time, distraction-free spaces, use of technology aides, paper-based exams, accessible testing stations, web-based accommodations, and other accommodations as based on the policies of the test creators. More information regarding accommodations can be found at: [www.ada.gov](http://www.ada.gov).

A.) Approved standardized testing instrument to demonstrate a youth reads and/or computes math at or below the 8th grade level, determined using the National Reporting System (NRS) **Educational Functioning Level 4** (“High Intermediate Basic Education”):
   - Test of Adult Basic Education (TABE)

B.) Approved standardized testing instrument(s) to demonstrate a youth reads and/or speaks English at or below the NRS Educational Functioning Level 5 (“High Intermediate English as a Second Language”):
   - Basic English Skills Test (BEST) Literacy or
   - Basic English Skills Test (BEST) Plus 2.0
