PURPOSE
New York State Department of Labor (NYSDOL) is partnering with Local Workforce Development Areas (LWDAs) to provide job training, credentialing and placement in good-paying jobs to young workers between the ages of 18 and 24, at least 75% of whom must reside in zip codes impacted by high rates of gun violence. In addition to each area’s existing referral network, youth will be referred by trusted community service providers with priority given to referrals from gun violence interveners and other anti-gun violence advocacy organizations.

This effort is one part of Governor Cuomo’s first-in-the-nation gun violence disaster emergency and comprehensive strategy to build a safer New York. This initiative treats gun violence as a public health crisis and includes short-term solutions as well as long-term strategies that focus on community-based intervention and prevention strategies to break the cycle of violence.

The One-Stop Operating System (OSOS) is the primary case management system used for tracking all services provided to customers throughout the Workforce Development System. OSOS collects substantial information from customers, businesses, and training providers. This information is also used to prepare required State and Federal reports.
This guide provides instructions on how to conduct the OSOS data entry for the Gun Violence Prevention (GVP) Local Initiative.

SEARCHING FOR THE CUSTOMER

When staff enter customer data into OSOS, it is important to determine if a record already exists for the customer. In addition, there may be instances where there are two existing records, or duplicate records, for the customer. When this occurs, we often see that one account has a Social Security Number and one does not. Following the instructions below ensures that any duplicate records can be found and addressed accordingly.

Searches are performed within the Customer Search window, in the Customer module.

While searches are most commonly performed from the Quick Search tab, any of the active tabs can be used in the search process. In addition, once you are case managing a customer, and their Customer ID is known, you may search for the customer using the Customer ID field.
QUICK SEARCH
A customer search is most commonly performed from the Customer Search window, Quick Search tab. There are numerous ways a customer search can be conducted depending on the information the staff has obtained. Staff will mainly search by Customer Full or Partial Name.

SEARCHING BY CUSTOMER FULL OR PARTIAL NAME
Staff may search for a customer record by full or partial name. Enter as much information as is known in the Last Name and First Name data fields.

As a best practice, staff should perform a name search for any customer they are working with to determine if duplicate OSOS records exist for the same customer. If a duplicate record is found, please contact help.osos@labor.ny.gov.

Click the Search button.
If there is only one result returned, OSOS will display the customer's record. It will default to the General Information tab of the Customer Detail window.

If there is more than one customer record matching the search criteria, the customers' information will be displayed in the window below the data entry fields.
If the search yields more than one result, staff can view all the records by first clicking on the check box in the top left-hand corner of the gray title bar. This will select all the results. Staff can then click on **Detail** at the bottom of the screen to review all selected customer records.

**Select All**

**Detail**
OSOS will display the customer record of the first customer selected. Use the arrows at the top right corner of the screen to toggle through the customer records. Staff can review the records to identify the customer they were searching for, as well as to identify potential duplicate records.
SEARCHING BY FULL SOCIAL SECURITY NUMBER OR NY ID
Once staff are case managing a particular customer, they can search by Customer SSN or
Customer ID in the Quick Search tab to find the customer record.

Then click the Search button at the bottom of the screen.

If there is a matching record, OSOS will display the customer's record. If there is no matching
record, the system will display No Matches Found in the upper right-hand corner.

The search can be based on either SSN or ID number, but it cannot be based on both.
Including data in both the Customer SSN field and the Customer ID field will result in
an error message.
If an existing customer record cannot be found, click the **New** button at the bottom of the screen to create a new customer record.

For detailed information on searching for a customer record, please see the [Performing a Customer Search OSOS Guide](#).

For detailed information on creating a customer record, please see the [Creating a Basic Customer Record OSOS Guide](#).
BASIC CUSTOMER RECORD

Creating or updating a basic customer record requires data entry in seven tabs. These tabs are located in the Customer module, Customer Detail window. They are:

- Gen. Info tab (General Information)
- Eligibility tab
- Add'l Info tab (Additional Information)
- Objective tab
- Work Hist. tab (Work History)
- Ed/Lic tab (Education/Licenses)
- Skills tab

All required fields in OSOS are indicated by a green dot in front of the field name.
To save the basic customer record, all required fields must be completed. However, to best serve the customer, staff should always enter as much information as possible.

Do not click Save until all the required information, in all tabs, is recorded for the complete basic customer record. If Save is selected before the data is completely entered, it will generate an error message. If this error message does appear, you will still be able to continue with the record by clicking OK and continuing to enter the information. Instead, when creating the customer record, simply select the next appropriate tab. Click Save when all the required information has been entered.

Staff must review all of the information in the customer record each time they work with the customer. This ensures that the record reflects the most up to date and accurate information.

BASIC CUSTOMER RECORD DETAILS

For detailed instructions on creating a basic customer record, please see the [Creating a Basic Customer Record OSOS Guide](#).

Below are some noteworthy points for filling out the tabs located within the Customer Detail window.

**General Info Tab**

- **SSN:** The SSN field is located "behind" a button in order to keep it as confidential as possible. When the customer provides their SSN it must be entered. Having an SSN in OSOS is very important because customer SSNs are used to match against wages and determine if the customer is employed. Entering a customer's SSN also helps prevent duplicate records.
• **Ethnic Heritage & Race**: Select the **Ethnic Heritage & Race** button. If the customer provides Ethnic Heritage and/or Race information, select the most appropriate choice. If no information is provided, select **Not Disclosed**. This information is also located "behind" the button in order to keep it as confidential as possible.
• **Portfolio Level** - A new record will default to **JobZone Adult**. You may keep this designation and therefore create the JobZone account along with the new OSOS record. Or, if the youth is younger than 18, you can choose the highest level of education completed (ex: **Tenth Grade**) in order to create a CareerZone account along with the new OSOS record.

• **Username and Password** - While this is a required field, any record with **Portfolio Lvl** set to **JobZone** will not use these fields for JobZone access. All **Portfolio Lvl**s other than **JobZone Adult** will use these fields as login credentials for CareerZone. Any unique username and any password may be entered in these fields, as long as they are at least 6 characters in length.

---

**Note:** If you are creating a new customer record, the Portfolio Level selected should reflect the highest grade level that the youth has completed. If an OSOS record already exists for the youth, **do not change the Portfolio Level in OSOS**.
Additional Info Tab

**Veteran Status** is the only required field on this tab. Additional information entered on this tab can be used to match customers to relevant job postings.

Programs / PA Tab

- This tab does not contain any required information. If the participant is receiving public assistance use the check box next to the title, and then fill in the **Reg Date**. If the customer is unsure of when they began receiving public assistance, ask them for their best approximation.

Objective Tab

- **Desired O*Net**: At least one **O*Net title** is required. Click the **Add a Job Title** button. Then, click the **O*Net Titles** button. This opens the Select O*Net Webpage Dialogue box. Use the Keyword search at the bottom or the O*Net folder hierarchy to find the job title most closely related to the employment the participant is seeking as a result of the GVP Local Initiative. Check the box next to the job title. Then click **Select**.

![Select O*Net -- Webpage Dialog](image-url)

**Hierarchy Search Details**

- [Select](#) [Cancel](#) [Clear](#)

**Desired O*Net**

- **O*Net Title**
- **Experience**: Year(s), Month(s)
- **O*Net Title**

- [Add a Job Title](#) [Delete Selected](#)

- **Desired Employers**
- [Company](#)

- [Add an Employer](#) [Add an Employee](#)

- [Search](#) [Select](#) [Cancel](#) [Clear](#)
**Work History Tab**

Select New Job Entry to enter a work history for the customer. Enter all required fields and any additional information provided by the customer. Since the population served under the GVP Initiative are youths and young adults, they may not have a work history. If the customer does not have any Work History, select No Information Provided.
Click the **Job Duties** button to open up a new webpage dialog box. Enter the job duties in the freeform text box and click **Save**.

**Ed/Lic Tab**

- There are three required sections within this tab; **Certificates/Licenses**, **Schools**, and **Professional Associations**. If the customer does not have information to enter in these sections, select **No Information Provided** under each section.

**Skills Tab**

- **Additional Skills Text**: Enter any additional skills and abilities that are important to the customer's job performance.

---

*Once the **Skills** tab is completed, and the entire basic customer record has been entered, click the **Save** button at the bottom of the screen. **Record Saved** will briefly be displayed in the upper right-hand corner when the record is successfully saved. If there are fields missing information, an Error Message pop up box will indicate the error.*
CASE NOTES
It is important to document case notes in the customer record. It is best practice to record case notes every time staff work with the customer. Case notes are documented in the Customer module, Customer Detail window, Comments tab.

Case notes should include details of the appointment that are not recorded anywhere else in OSOS. They should be clear, factual, relevant to employment, and show a logical progression. Case notes allow staff to gain a more complete understanding of the customer's situation.
COMPREHENSIVE ASSESSMENT

Information documented in the Comprehensive Assessment window is important for recording the customer's barriers and challenges. For detailed instructions on completing the Comprehensive Assessment, please see the Comprehensive Assessment & Supplemental Data Guide.

Many of the fields in Comp Assess are used to determine eligibility under WIOA programs. Since the GVP Local Initiative is a state funded program, participants do not need to be co-enrolled in the WIOA programs. Participants served solely under the GVP Local Initiative will not be included in WIOA performance. For the purposes of this initiative, providers should only enter information that is known. If the information is unknown, please select No or Not Disclosed.

In order to provide additional services to participants, Local Areas may choose to co-enroll in WIOA. If a customer is being enrolled in both the GVP and WIOA programs, then information required under WIOA must be entered in OSOS. Once a customer is co-enrolled, all WIOA eligibility, data entry, and reporting requirements must be followed. Co-enrolled customers will be included in Local Area Performance measures.

The Comp Assess window is located in the Customer module.

When information is entered into the Comprehensive Assessment section, all required data fields (as indicated by a green dot) must be completed in order to save the record.
Below are some noteworthy points for filling out the tabs located within the Comprehensive Assessment window for participants only enrolled in the GVP Local Initiative. However, as a best practice, staff should always enter as much information as known about the customer to better serve and meet their needs.

**Employment Tab**
- **Youth Needing Additional Assistance**: Local area determines what youth will fall into this category. For the purposes of this initiative, staff may select No.
- **Cultural Barriers to Employment**: This information is collected as a requirement under WIOA and is not related to this initiative. Staff may select Not Disclosed.

**Education Tab**
- **Basic Skills Deficient/Low Levels of Literacy**: Providers do not need to determine basic skills deficiency. Only enter this information if it is known. If unknown, select No.
- **English Language Learner**: An English Language Learner will have limited ability in speaking, reading, writing or understanding English. They may also meet one of the following two conditions:
  - Their native language is a language other than English; or
  - They live in a family or community where a language other than English is the main language.

**Financial Tab** - Do not enter any information into this tab.

**Family Tab**
- **Marital Status**: Select the option that most closely reflects the customer's marital status. Or, select Not Disclosed.
- **Family Status**: Select the option that most closely reflects the customer's family status. In most cases, such as a non-parenting youth, the customer is considered an Other Family Member. Or, select Not Disclosed.
- **Is Customer parenting youth?**: Female youth customers are considered parenting once pregnant. Alternatively, male youth customers are only considered parenting once their child is born.

*Female customers will have the additional required field Is customer pregnant? If Yes is selected, staff must enter a Delivery Date.*
Health tab and Treatment tabs are both greyed out and not accessible. They require no action.

Legal Tab - There is no required information located in this tab. However, if the customer discloses that they are an ex-offender, staff should select Yes. If the customer identifies as an ex-offender, record relevant comments in the Customer Detail window, Comments tab. Information recorded would include when the conviction occurred, and whether the customer has work restrictions. Comments must be specific to job search restrictions and work search restrictions only.

Housing Tab

- Current Housing - Select the option that most closely reflects the customer’s current housing status. Many youth will not own or rent their own home, so this information should be based on their care taker. For instance, if the youth lives in a home owned by their parent(s), select Own. Or, select Not Disclosed.

Comments Tab - Do not use the Comments tab located within the Comp Assess window. Any Comments must be recorded in the Customer Detail window, Comments tab.
SERVICES
Staff use the Services window in OSOS to record the services provided to the customer.

ENTERING AN ACHIEVEMENT OBJECTIVE FOR YOUTH SERVICES
In order to enter a Youth Service for the customer, an Achievement Objective must first be saved in the customer record. Please note, if you are recording an Adult Service for this participant, you do not need to record an Achievement Objective and can go directly to Entering the Service.

To create an Achievement Objective, select the Customer module, Services window, Achievement Objectives tab. Click the New Objective button at the bottom of the screen.
Enter the **Achievement Objective, Type of Goal, Planned Start Date and Actual Start Date.**

**Planned Start and Actual Start Date** should be the date the participant entered into the GVP Local Initiative program. **Evaluation Date** is the date halfway between the **Actual Start Date** and the **Planned End Date**

**Goal Attainment** should be **Set, but attainment pending.**

Click **Save.**
ENTERING THE SERVICE
To record a service, first select the **Services** tab.

Select the **New Service** button.
This navigates to the Provider module, Offering Search window, Quick Search tab. Select the General Info tab.
Verify the correct **WIB** is selected

Click the **Service Type** button to bring up a new webpage dialog box.
Select the corresponding **Service Type** being provided to the participant and click **OK**.
Once the **Service Type** is chosen, click **Search**.
The search results will be presented at the bottom of the screen.

Select the appropriate service that is being provided and click **Schedule**.
This brings you to the Customer module, Services window, Services tab. Select the Service using the check box in the far-left column.

Enter the following fields in the Detail section: Plan Start Date, Plan End Date, and Actual Start Date. If the service provided is ongoing, do not enter an Actual End Date until the service is complete. Instructions for closing a service are provided later in this guide. As a best practice, enter a Next Contact Date to follow-up. A reminder will show up in your Staff Inbox when it’s time to review the Service.

Many services may be provided in one day. If this is the case, enter the same date in all four date fields and select the appropriate option on the Completed Successfully drop-down menu. If a training spans over a course of time beyond one day, then you will select Completed Successfully (yes/no) once the training has ended.
Choose an appropriate Program Service Type. This will vary based on the service provided. If you are recording an occupational skills training, select ITA-Training. If you are recording an On-the-Job training, select Non-ITA Training. Other services will be recorded as either Basic Career Services (for example, assessment or career guidance) or Individualized Career Services (for example, work experience, individualized service strategy, supportive services). Please note, if you are recording a youth service, Youth Services cannot be selected as the Program Service Type unless funded with WIOA funds.

If you are recording a youth service, select the appropriate Achievement Objective from the Achievement Objective dropdown.

If you are recording a training service, select the O*Net Title which corresponds to the training. You will also need to indicate if the training is part-time (yes/no) and if the training is offered via distance learning (yes/no.)

Click the Save button.
Next, you will attach the funding. Enter 1 into the **Total Funding** field. Then click the **Add** button.
The **Funding Webpage Dialogue** box will open.

Select the **Gun Violence Prevention Local Initiative** funding.

Enter 1 in the **Obligated Amount** field. This will automatically populate the **Obligated Percentage** field as $1.00 or 100.

Click OK.
The appropriate funding has now populated the **Funding** section.

Click **Save** at the bottom of the screen.
CLOSING A SERVICE

It is important that an Actual End Date is added to a service when the service has ended. This is called closing the service. Funded services, other than Follow-Up Services, that remain open will prevent a customer from exiting their enrollment.

To close an open service, navigate to the Customer module, Services window, Services tab. Select the service that has ended and must be closed.
Enter the **Actual End Date** and select **Completed Successfully** (yes/no).

Click **Save**. The service is now closed.
OUTCOMES

Employment and training outcomes for GVP Local Initiative participants must be recorded in the Employment Outcomes and Training Outcomes tabs of OSOS.

*Please note that if a participant is served solely under this initiative, the participants will not be counted in local performance measures and information entered in these tabs will not impact performance numbers. However, if the participant is co-enrolled in WIOA, they will be included in all applicable local and state performance measures. In this case, all outcome information must be entered per the WIOA Performance Measures and Outcomes OSOS Guide.*

TRAINING OUTCOMES

When a participant has successfully completed training, it must be noted in the **Trng. Outcomes** tab in the **Services** window.

Click the **Add Outcome** button at the bottom of the screen.
Enter the **Category** and **Type** of the Credential earned due to the completed training.

Enter the **Enroll Date** and the **Completion Date** of the training.

Enter the **Attainment Status** of "Completed - attained intended credential."

Enter the **Certification Date**, the **Major/ Program**, the **Degree/Certificate/Credential** obtained, and the **School/Institute** which granted that credential.

Click **Save**.
EMPLOYMENT OUTCOMES

When a participant obtains employment, this must be recorded in the Empl. Outcomes tab in the Services window of OSOS.

Click the Add Outcome button at the bottom of the screen.
Required fields in this tab are **Type** and **Start Date**, but you should enter as much information as is known about the employment.

Please note the Characteristics section at the right of the screen. If the employment is related to training provided to the customer, remember to mark **Training Related** as **Yes**.
When the participant wages are known, they must be entered into OSOS.

Click the **Manual Wages** button in the Employment Outcomes tab.
This opens the Manual Wages webpage dialog. Click Add to open up the fields. Enter the date of the paycheck or wage earned. Enter the Salary Unit, the Salary per Unit, and the Number of Units. Click the Calculate button. Click the OK button.

Remember to click Save at the bottom of the screen.
RESOURCES AND ASSISTANCE

Additional program information, OSOS guides and other resources can be found on the NYS Department of Labor's website.

For further assistance, please contact the OSOS Help Desk:
By phone: (518) 457-6586
By email: help.osos@labor.ny.gov
