Introduction to the Prevailing Rate Schedule

Introduction

The Labor Law requires public work contractors and subcontractors to pay a service employee under a contract for building service work for a public agency, a wage of not less than the prevailing wage and supplements (fringe benefits) in the locality for the classification(s) in which the worker was employed. Such a public work building service contract must be in excess of one thousand five hundred dollars ($1,500).

Requesting a Wage Schedule

For every building service contract, the public agency must file a statement identifying the types of employees and work to be performed by submitting a Request for Wage and Supplement Information form (PW 39) to the Bureau of Public Work, either online, by fax, or by mail.

The Commissioner of Labor makes an annual determination of the prevailing rates. This determination is in effect from July 1st through June 30th of the following year.

The Public Agency must include the specifications for each building service contract the PRC number assigned to such contract and stipulation obligating the contractor to pay not less than the wage rates set forth in the Prevailing Wage Schedule issued under that PRC number.

Hours

A building service employee, employed by a contractor, shall work up to eight (8) hours in any one day and up to forty (40) hours in any workweek for the appropriate posted prevailing wage rates. A building service employee who works more than eight (8) hours in any one day or more than forty (40) hours in any workweek shall be paid wages for such overtime at a rate not less than one-and-one-half (1.5) times the prevailing basic cash hourly rate.

Wages and Supplements

The wages and supplements to be paid and/or provided to a building service employee, employed on a public work contract shall be not less than those listed in the Prevailing Rate Schedule.

A supplemental benefit of "paid time off" shall be provided as paid leave, or converted to an hourly value paid to the employee. If "paid time off" is converted to an hourly monetary value, such an amount is to be paid in addition to any other hourly supplements required by this schedule.

The hourly value for "paid time off" would be calculated as follows: hourly wage rate X 8 hours per day X total number of paid days off divided by 2080 hours. For example: $16.00 per hour wage rate X 8 hours per day = $128.00; $128.00 X 5 paid days off = $640.00; $640.00 divided by 2080 hours = $0.31 per hour. The $0.31 per hour amount would be in addition to any other required supplemental monetary amount paid.

All "paid time off" provided to part-time employees, shall be prorated (divided, distributed, or assessed proportionately) based on fulltime equivalent hours.

The amount of "paid time off" for part-time employees, would be calculated as follows: number of part-time weekly hours divided by 40 fulltime weekly hours = percentage of "paid time off" for part-time employee. For example: a fulltime employee works 40 hours per week and a part-time employee works 30 hours per week (30 hours divided by 40 hours = .75); if a fulltime employee is provided 5 paid vacation days (5 X .75 = 3.75), a part-time employee would be provided 3.75 paid vacation days.

Payrolls and Payroll Records

Every contractor and subcontractor MUST keep original payrolls or transcripts subscribed and affirmed as true under penalty of perjury. Payrolls must be maintained for at least three (3) years from the projects date of completion. Additionally, as per Article 6 of the Labor Law, contractors and subcontractors are required to establish, maintain, and preserve for not less that six (6) years, contemporaneous, true, and accurate payroll records.

At a minimum, payrolls must show the following information for each person employed on a public work project: Name; Address, Last 4 Digits of Social Security number, Classification(s) in which the worker was employed, Hourly wage rate(s) paid, Supplements paid or provided, and Daily and weekly number of hours worked in each classification.

Payroll records and transcripts are required to be kept on site during all the time that work under that contract is being performed.

NOTE: For more detailed information regarding Article 9 prevailing wage contracts, please refer to "General Provisions of Laws Covering Workers on Article 9 Public Work Building Service Contracts".

Holiday Codes

**PAID Holidays:**

Paid Holidays are days for which an eligible employee receives a regular day's pay, but is not required to perform work. If an employee works on a day listed as a paid holiday, this remuneration is in addition to payment of the required prevailing rate for the work actually performed.

**OVERTIME Holiday Pay:**

Overtime holiday pay is the premium pay that is required for work performed on specified holidays. It is only required where the employee actually performs work on such holidays. The applicable holidays are listed under HOLIDAYS: OVERTIME. The required rate of pay for these covered holidays can be found in the OVERTIME PAY section listings for each classification.

Following is an explanation of the code(s) listed in the HOLIDAY section of each classification contained in the attached schedule. The Holidays as listed below are to be paid at the wage rates at which the employee is normally classified.
