Hang moldings 16. Hang framed and stretched fabric wall coverings 17. Install carpet wall coverings 	
	Approximate Total Hours (Over a four-year period)	6,000

Apprenticeship work processes are applicable only to training curricula for apprentices in approved programs. Apprenticeship work processes have no impact on classification determinations under Article 8 or 9 of the Labor Law. For guidance regarding classification for purposes of Article 8 or 9 of the Labor Law, please refer to <https://dol.ny.gov/public-work-and-prevailing-wage>

DRAFT

APPENDIX B

PAPERHANGER

RELATED INSTRUCTION

Workplace Safety and Health

Proper clothing

Use of sharp tools

Ladders

Scaffolding

Planks

General hazards in construction

Sexual Harassment Preventing Training – must comply with Section 201-g of the Labor Law

OSHA 10-hour construction course

Asbestos awareness – minimum 4 hours (see attachment)

First aid – minimum 6.5 hours every 3 years

Alcohol and drug awareness

Avoiding repetitive motion injury

Job Skills and Training

Fundamentals of Mathematics

Estimating materials needed

Reading blueprints

Preparing time sheets

Preparation of Surfaces

- Old surface
- New surface

Paste Table Work

Types of adhesives

- Types of wall covering
- Selection of proper adhesives
- Mixing and intermixing
- Application of adhesives
- Cutting and matching

Materials and Tools of the Trade

Room Layout

- Simple patterns
- Special patterns
- Side walls, ceilings
- Working around windows and doors
- Working around arches, dados, and coves

Art and Color Theory

Wall Covering Materials Hanging

- Fabric wall cover
- Foil wall cover
- Cork cover
- Carpet cover
- Wood veneers cover
- Framed and stretched fabric cover
- Vinyl
- Molding cover
- Exotic cover

Specialized Wall Coverings

- Digital image murals
- Fabric tract panels
- Silk

Graphics

Foreperson Training/Communication Skills

History of wallpaper

Mass production

Hand screening process

Other Related Courses as Necessary

A minimum of 144 hours of Related Instruction is required for each apprentice for each year.

ATTACHMENT TO APPENDIX B

Asbestos Awareness

This course must be delivered by one of the following:

1. A provider currently approved by the New York State Department of Health to deliver asbestos safety training.
2. A person holding a current Asbestos Handler certificate from the New York State Department of Labor in the title of: Inspector, Supervisor, Project Monitor, Management Planner, or Project Designer.
3. Anyone otherwise approved by the New York State Education Department.

Minimum course contents must include the following:

1. Definition of asbestos
2. Types and physical characteristics
3. Uses and applications
4. Health effects:
 - Asbestos-related diseases
 - Risks to families
 - Cigarette smoking
 - Lack of safe exposure level
5. Employer-specific procedures to follow in case of potential exposure, including making a supervisor or building owner immediately aware of any suspected incidental asbestos disturbance so that proper containment and abatement procedures can be initiated promptly.

Notwithstanding the above course requirement, employers are advised that they must also be in compliance with New York State Department of Labor Industrial Code Rule 56 at all times.

Employers are further advised, and must advise all apprentices, that completion of the above course requirement does not authorize any person to remove, encapsulate, enclose, repair, disturb, or abate in any manner, any friable or non-friable asbestos, asbestos containing material, presumed asbestos containing material, or suspect miscellaneous asbestos containing material.
